Mechanism for Best Teacher Award

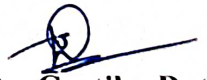

Teachers are the most important assets for any Institute; Bharatiya Vidya Bhavan College will have a mechanism to assess teacher's productivity through 360 – degree feedback mechanism. This will help us to create an even platform for the faculty to be a contender for “**Best Educator Award**” every year.

In this mechanism, feedback is collected from all the stakeholders associated with the teacher through an online questionnaire via Google forms. Feedback is taken for different aspects/ roles of a teacher from academic delivery to research contributions, from relationship with students to relationship with the fellow faculty, from teaching skills to ethical attributes that are vital for a teacher. Evaluators included in 360-degree feedback will be:

1. Principal, BVBC
2. Fellow Faculty Members
3. Students of final year

After compiling data from all the sources, “**Best Educator Award**” will be declared every year.

All the Best !!

Respected Principal ma'am and GRC members

I am writing to formally lodge a complaint against Kriti Sachdeva, a student in the BBA 3rd Year, for misconduct related to her interactions with first-year students and her actions against the Dance Society.

Details of the Complaint:

1. **Misleading Information:** Kriti Sachdeva has repeatedly told juniors that we won the competition by mistake and that she will make her own dance society despite it being officially approved by the Principal.
2. **Sowing Discord:** She has engaged in defaming me personally, leading to the deterioration of my friendship with a close friend by spreading false statements about me and also with the juniors so much so that they hate us now
3. **Organizing Meetings Against Us:** She has reportedly organized meetings with first-year students to plot against the Dance Society and its members, creating a hostile environment where the juniors now have a negative opinion of us.

We have secured screenshots and other evidence supporting the claims mentioned above, which we are ready to provide upon request.

These actions have negatively impacted the functioning of the Dance Society, as well as my personal and social relationships within the college.

I kindly request that appropriate action be taken to address this issue and restore a positive atmosphere within the student body. I would appreciate an opportunity to present our evidence and discuss the matter further.

Thank you for your attention to this serious matter.

Yours sincerely,

Students Feedback

Main goal of an educational institution is to impart an all-round education to the students such that they develop not only their academic side but also shape their character so as to become dutiful citizens of the country. As such, proper syllabi, extra-curricular activities and other initiatives are taken up for their holistic development. However, each and every effort remains lacking without the addition of a proper student feedback for the same. An effort has been made to collect the viewpoints of the students so as to improve the already existing structure and determine the efficiency of the same

ANALYSIS OF STUDENTS' FEEDBACK All the responses will be tabulated and scrutinized carefully to analyze them so as to gain a better understanding of the viewpoint of the students. The analysis is taken to consideration with respect to the suggestions offered accordingly.
